Program Description:

Intern Program

This is a self paced program that comes "in a box" which consists of 3 tracks:

> Introductory
> Power User
> Advanced

The information is organized and easy for our customers to use:

> leverages eLearning (free for students at accredited academic institutions)

leverages publicly available webinars

provides places to add enrichment activities

We suggest having someone invest in the program to provide enrichment activities and the documentation suggests a few potential ones.

Customers are welcome to take advantage of our professional services or partners if they need more support/help in delivering the intern program (or want to extend it but do not have the resources).

This program could also be thought of as a new user onboarding program.

What Does the Customer Do?

Understand which track(s) their intern(s) will complete during their internship and assign

Update the template with the information needed

Update the webinar dates as needed (or provide link to the pre recorded webinar)

Decide whether they will do a Viz Games or other enrichment activities

Deliver the program to their interns.

What Does Tableau Do?

Provide the program documentation to the customer contact

Provide support locating webinar information

Provide swag if appropriate

Encourage our customers to adopt the program

Connect customer with resources such as professional services or partners if help is required to implement
